

The diagram illustrates a hierarchical classification system for animal species, organized into three main levels: a top row of specific species, a middle row of broader categories, and a bottom row of the most general categories.

Top Row (Species):

- Vissen** (Fish): Represented by a large image icon and a dropdown menu.
- Huismus** (House mouse): Represented by a small image icon with a plus sign, a label, and a dropdown menu.
- Sprinkhaan** (Grasshopper): Represented by a small image icon with a plus sign, a label, and a dropdown menu.
- Krekel** (Cricket): Represented by a small image icon with a plus sign, a label, and a dropdown menu.

Middle Row (Categories):

- Kraai** (Crow): Represented by a small image icon with a plus sign, a label, and a dropdown menu.
- Bij** (Bee): Represented by a small image icon with a plus sign, a label, and a dropdown menu.
- Spreeuw** (Magpie): Represented by a small image icon with a plus sign, a label, and a dropdown menu.
- Zalm** (Salmon): Represented by a small image icon with a plus sign, a label, and a dropdown menu.
- Vissen** (Fish): Represented by a large image icon and a dropdown menu.

Bottom Row (General Categories):

- Vogels** (Birds): Represented by a large empty box.
- Insecten** (Insects): Represented by a large empty box.
- Vissen** (Fish): Represented by a large empty box.

Navigation and Interaction:

- A trash can icon is located in the top left corner.
- A question mark icon is located in the top right corner.
- Green arrows point left and right from the middle row, indicating navigation.
- Green plus signs are located to the right of the top row and bottom row, indicating addition or expansion.
